

Super nova

Super nova

PROMPT USED-

"An awe-inspiring supernova explosion in deep space, with vibrant and intense colors. The core of the explosion is a dazzling, radiant white light, gradually fading into brilliant shades of electric blue, fiery red, and golden yellow, with hints of purple and green near the outer edges. Wisps of nebula-like gas and cosmic dust spiral outward in intricate, wave-like patterns, giving the scene a dynamic, swirling effect. Surrounding the supernova are distant stars and galaxies, providing a sense of scale and vastness. The background is a dark, star-speckled cosmic void, enhancing the luminous glow of the supernova explosion."

AI USED-

"GENCRAFT"
